Overview

The November 22, 2004 Senate Nominee Election was conducted under the authority of the *Senatorial Selection Act*, as amended in March 2004. Section 3 of the *Act* directs that:

> *The Government of Alberta shall submit the names of the Senate nominees to the Queen's Privy Council for Canada as persons who may be summoned to the Senate of Canada for the purpose of filling vacancies relating to Alberta.*

The *Act* directs that an election may be held:

- in conjunction with a general election under the *Election Act*,
- separately on a date provided for in the order, or
- in conjunction with the general elections under the *Local Authorities Election Act*.

The election was held in conjunction with a Provincial General Election for the first time in Alberta's history. Order in Council 452/2004 dated September 29, 2004 directed that an election of four persons under the *Senatorial Selection Act* was to be conducted. The Order in Council directed that the timeline would follow the key dates established for the Provincial General Election, with one exception. The issuance of the Writ and Proclamation in advance of the election period allowed candidates to begin collecting signatures on their Candidate Nomination Papers. Specific key dates appear in the election calendar that follows.

Eligibility of Candidates

Candidates had to meet the following qualifications in accordance with the *Constitution Act, 1867*. Each had to be:

- at least thirty years of age,
- a Canadian citizen,
- owner of $4,000 in real property in Alberta, and
- resident in Alberta.

Candidates also had to meet the following qualifications in accordance with the *Senatorial Selection Act*:

- ordinarily resident in Alberta for at least six months immediately preceding Polling Day,
- could not be sitting members of the House of Commons, Senate of Canada or Alberta Legislative Assembly,
- could not be candidates in the November 22, 2004 Provincial General Election, and
- could not be prohibited from participation by Sections 57, 178 or 181 of the *Election Act*.

Registration of Candidates

Twelve prospective candidates filed registration papers under the *Election Finances and Contributions Disclosure Act*.

Ten candidates filed nomination papers with the Chief Electoral Officer by the close of nominations at 2:00 p.m. on November 8, 2004. Each of the candidates collected a minimum of 1,500 electors' signatures supporting their nomination and provided a $4,000 nomination deposit.

Advertising

The Proclamation was advertised in 9 daily newspapers and 103 weekly newspapers throughout the province, following its issuance on September 29, 2004. Subsequent advertisements combined information for both the Senate Nominee Election and the Provincial General Election.

In accordance with legislation, maps of each electoral division were advertised in newspapers of general circulation on two occasions during the election period. The first advertisement appeared in the first week of November, and included Proclamation information, Returning Officers' office hours and contact information, qualifications for Special Ballot voters, and information regarding the availability of level access in the Returning Officers' offices and advance polling places.

The second advertisement appeared in mid November, and included information on regular, advance and Special Ballot polls, along with the polling place maps.

Elector Information

Candidates' nominations closed at 2:00 p.m. on November 8, 2005, in accordance with Section 9 of the *Senatorial Selection Act*, and a listing of candidates was available on the website later that day. Prior to that, names of individuals who had registered under the *Election Finances and Contributions Disclosure Act* were web-posted to provide electors with names of the prospective candidates.

The Office of the Chief Electoral Officer's website provided answers to commonly asked questions regarding polling place locations, eligibility criteria and availability of voter assistance. For the first time, electors were able to determine their polling place location following data entry of their civic address or rural legal land description. Electors were also able to confirm their inclusion on the List of

Electors after entering the personal information necessary to confirm their identity and prohibit information gathering by unauthorized sources.

At the close of polls on Polling Day, electors were able to obtain unofficial results as that information was entered by Returning Officers. The portion of the website containing poll by poll results, and aggregate results for the province, was visited over 112,000 times on Polling Day.

Voting Options

In accordance with Section 31 of the *Senatorial Selection Act*, electors had the same range of voting opportunities as for the Provincial General Election. Provincial Returning Officers (presented on page 14), along with the staff hired to manage the Provincial General Election, facilitated the Senate Nominee Election vote. The election process and voting options were the same for both events.

Special Ballot Polls

Eligible electors were able to vote by Special Ballot throughout the election period. This is a favoured option of electors who are physically incapacitated, and for those who travel, work or attend an educational institution outside of their own electoral division for extended periods. Upon the elector's request to the Returning Officer, electors were provided with a Special Ballot on which they were asked to record the names of up to four candidates of their choice. The Special Ballot packages had to be returned to the appropriate Returning Officers by the close of polls on Polling Day in order to be counted.

11,690 valid votes were cast at 83 Special Ballot polls across the province.

Advance Polls

Advance polls were conducted on November 18, 19 and 20 from 9:00 a.m. to 8:00 p.m. Many were held in the offices of the Returning Officers; up to four advance poll locations were established in electoral divisions covering large geographic areas to ensure elector convenience. Advance polls were available for electors who were physically incapacitated, election officers, candidates, official agents, scrutineers, or who were going to be unable to vote or absent on Polling Day.

106,044 valid votes were cast at 165 advance polls.

Mobile Polls

Treatment centres and supportive living facilities with ten or more inpatient or resident electors were provided with a mobile poll on Polling Day, where consultation between Provincial Returning Officers and facility staff found the service to be appropriate.

Advance notification was provided to advise eligible electors of the time that the mobile poll was to be held. Mobile polls were conducted in fixed locations, or by going bed-to-bed, or by using both methods, to best meet electors' needs.

34,049 valid votes were cast at 477 mobile poll locations.

Election Training

Provincial Returning Officers trained 7,270 electors to staff the polls on Polling Day. Those election officers were provided with standardized training to manage the Senate Nominee Election and the Provincial General Election.

Election officers were responsible for two sets of ballots. In addition, they advised electors on how to mark the ballot for each election and answered questions that arose.

Ballots

2,604,000 ballots were prepared for distribution to 83 Provincial Returning Officers prior to the conduct of the advance polls. Written instructions on the ballot directed electors to select up to four Senate Nominee Election candidates by marking an "x" next to the candidate(s) of their choice.

These instructions were supplemented by the posters displayed in each polling place, which directed electors on how to vote. Translation sheets provided the same instructions in thirteen different languages.

Election Night Results

At the close of polls, election officers conducted the unofficial count of all Senate Nominee Election ballots following the Provincial General Election ballot count. Counting the votes for the Senate Nominee Election was particularly time-consuming, since each valid ballot could contain up to four votes. In a polling subdivision of 450 electors, a deputy returning officer and poll clerk had a huge task, with a potential for counting up to 2,250 votes in total, for the two events.

Unofficial results for both events were communicated to Provincial Returning Officers by telephone and were made available in the Returning Officers' offices. For the first time, staff in Returning Officers' offices data entered the unofficial results as they arrived and posted that information to the website. Interested parties were able to view poll-by-poll results, as well as results aggregated for the entire province, as they were posted. The information systems capability will be enhanced prior to the next electoral event in order to expedite the web-posting of unofficial results.

Official Results

Provincial Returning Officers were required to count all ballots cast in the Senate Nominee Election and transmit results to the Chief Electoral Officer within four days of the election. This was an extremely time-consuming process due to the potential for multiple votes on each ballot and the large volume of ballots.

It became apparent that the official count could not be completed by the legislated deadline of Friday, November 26 in all electoral divisions. The Chief Electoral Officer invoked the emergency powers prescribed by Section 4(2) of the *Election Act* to extend the deadline for completion and to allow Returning Officers to employ additional staff to assist with the count, where needed. Official results for all 83 electoral divisions were transmitted to the Office of the Chief Electoral Officer by Monday, November 29, 2004.

The Chief Electoral Officer prepared a Tabulation of Official Results by consolidating the results received from all Provincial Returning Officers. The Chief Electoral Officer announced the official results on December 2, 2004 and declared the four candidates with the most votes elected.

The term of the Senate Nominees elected expires on the day the writ is issued for the second general election following the general election conducted on November 22, 2004, in accordance with Order in Council 413/2004.

Names of Senate Nominees elected appear in bold type

The *Senatorial Selection Act* directs that the candidate's nomination deposit is to be returned for each winning candidate and for each candidate who receives half of the total number of votes obtained by the candidate elected with the least number of votes. Nomination deposits of $4,000 were returned to all of the candidates whose names appeared on the ballot.

Points of Interest

Electors cast 885,289 ballots in the election conducted under the *Senatorial Selection Act*, representing a voter turnout of 44.2%. In comparison, the voter turnout for the Provincial General Election was 44.7%. This slight variance occurred because electors did not wish to receive ballots for both elections in all cases. Election officers had been instructed to confirm that the elector wished to decline to cast a ballot in one or both elections, in this situation. Declined ballots were to be marked appropriately, maintained separately from the other ballots and recorded as declined for counting purposes. This did not always occur. Since some electors received only one ballot, the official results indicated that a small percentage of electors participated in only one election when voter turnout was calculated.

The 714,709 valid ballots cast contained 2,176,341 valid votes. On average, electors selected three candidates on each valid ballot.

To provide a historical perspective:

- 891,583 valid votes were cast in 1998 to elect two Senate Nominees;
- 641,519 valid votes were cast in 1989 to elect one Senate Nominee.

85,937 electors declined to cast a ballot in the election under the *Senatorial Selection Act*. That equates to 4.2% of eligible voters, or 9.7% of the voters who received ballots on Polling Day.

84,643 ballots were rejected in accordance with the criteria on page 28. That equates to 9.5% of the total ballots cast.

Campaign Period Financial Statements

The filing deadline for Candidates' Campaign Period Financial Statements was March 22, 2005, four months after Polling Day. Details of expenses incurred by each candidate will be web-posted.

Twelve individuals filed registration documents, in accordance with Section 9 of the *Election Finances and Contributions Disclosure Act* (the *Act*) pertaining to this Senate Nominee Election, and were therefore required to file Campaign Period Financial Statements, in accordance with Section 43(2) of the *Act*.

One candidate, Gerry Pyne, from the Alberta Social Credit Party did not file a Candidate's Campaign Period Financial Statement as required by Section 43(4)(b) of the *Act*. Pursuant to Section 44(1) of the *Act*, the name of the candidate and his chief financial officer were reported to the Speaker of the Legislative Assembly on April 4, 2005.

The filing deadline for Political Parties' Campaign Period Financial Statements was May 24, 2005, six months after Polling Day.

Copies of all financial statements are received by the Office of the Chief Electoral Officer and placed on the Public Files for examination during normal office hours. Copies of the Candidates' Campaign Period Financial Statements are presented, for informational purposes only, in the Financial Statements section of this report beginning on page 197.

The Statements have not been examined by the Office of the Chief Electoral Officer. Once examined, any amendments will be placed on the Public Files.

Remarks of the Chief Electoral Officer

The conduct of the first Senate Nominee Election in conjunction with a Provincial General Election was a welcome challenge.

On the surface, the task of conducting the two elections would appear to be straightforward. In reality, managing two parallel elections on one day is a complex undertaking. Appropriate resources, forms and training packages had to be created and distributed across the province. Election administrators had to be prepared to answer questions related to both events in a clear, concise manner. Election administrators also had the daunting task of counting ballots and reporting results for the two events. Adjustments were required to the Alberta Register of Electors System (AROES) to accommodate the differences between the two events, particularly in consolidating and displaying unofficial and official results.

The successful administration of the event is a tribute to the many individuals involved as Returning Officers, election officers, candidates, campaign workers and volunteers.

Statements of Official Results

The following poll-by-poll results have been taken directly from the Statements of Official Results completed by Returning Officers in the 83 electoral divisions across the province.

Poll-by-poll results include the number of valid votes cast for each candidate, along with the number of valid, spoiled, declined and rejected ballots.

- Valid ballots are those that are clearly marked for one, two, three or four candidates in accordance with Section 111 of the *Election Act*. A valid ballot may contain up to four valid votes.

- Rejected ballots are those not counted because the elector's intent was unclear, or because no candidates or more than four candidates were selected, or because readily identifying marks were added.

- A spoiled ballot is one that was marked incorrectly by an elector, who then obtained a replacement ballot from the deputy returning officer. Spoiled ballots are not placed in the ballot box for counting.

- A declined ballot is one that was returned by an elector, who chose not to vote for any candidate listed on the ballot.

Poll-by-poll results display the number of eligible electors, including all electors who were on the October 2004 List of Electors, those who were added during the Revisions Period, and those who were added by swearing-in on Polling Day. The percentage of voter turnout is calculated based on the total number of eligible electors at the close of polls on Polling Day.
